DO YOU FISH?

WE WANT TO HEAR FROM YOU!

WED. OCT. 18, 2017
6:30 - 9pm

Mount McIntyre Recreation Centre
DOOR PRIZES

Registration Required:
www.yttroutsalmonhookup.eventbrite.ca

The Yukon Fish and Game Association would like to invite you to a LAKE TROUT and SALMON recreational fishers engagement session. The purpose of the meeting is to gather your perspectives on the conservation, management and sustainable utilization of our precious Lake Trout and Salmon fisheries in Yukon.

Potential Goal for Recreational Salmon Fishing in the Yukon

To open a small, consistent, and sustainable recreational salmon fishery that supports multiple parties' conservation efforts and fosters a greater understanding around the cultural value of salmon.

Recreational Angling Considerations

- To better understand the fishery, anglers and redefine the Yukon salmon angling experience
- To achieve a greater understanding of recreational fishing in the context of the UFA, SGA's, implementation and true co-management
- Support and work with all parties towards rebuilding of salmon stocks in the Yukon
- To recognize the First Nation cultural and spiritual value of salmon, sacrifices and support the spirit of reconciliation

Anglers are not homogenous

Anglers want to be part of the solution

Approach should be holistic

Kwànnäschtis Thank you
